

CURRICULUM VITAE

1. Contact information

Name: Joana Rita Oliveira Faria Marques

Birth place and date: Coimbra, December 7th, 1983

Citizenship: Portuguese

Institutional address:

Faculdade de Medicina Dentária Universidade de Lisboa – Cidade Universitária

1649 003 Lisboa – PORTUGAL

Mobile phone contact: +351 91 475 15 55

E-mail: joana.marques@fmd.ul.pt

2. Personal Statement

I had my first contact with research in Oral Biology during the 2nd year of the DDS degree as a research student, and since then I decided to complement my career as a dentist with the translational view of basic science. I started my PhD in 2010 in Oral Biology focusing the immunological changes in the oral cavity that occur in HIV infection, particularly in HIV-2 infection and how these changes may impact the oral health status of these patients.

I am also interested in the cellular behavior of oral tissues to different conditions and biomaterials. At our cell culture lab we are investigating the behavior of osteoblasts and gingival fibroblasts to different biomaterials for implant dentistry and regeneration. Understanding the biological critical factors driving a successful and biomimetic approach for restorative dentistry is our final goal.”

3. Education

2015: PhD, Dental Medicine, Oral Biology, Faculty of Dental Medicine University of Lisbon. Thesis title: “Interactions between HIV, microorganisms and innate immune factors in NIH-2 and HIV-1 infection”. Mentor: Prof. Doutor António Mata

2009: MSc, Dental Medicine, Faculty of Dental Medicine University of Lisbon, Portugal

2007: DDS, Dental Medicine, Instituto Superior de Ciências da Saúde – Sul, Almada, Portugal

3. Teaching Experience

2015–present: Assitant Professor, Oral Biology and Immunology (Faculty of Dental Medicine University of Lisbon)

2010–2015: Assistant lecturer, Oral Biology and Immunology (Faculty of Dental Medicine University of Lisbon)

2007–2010: Senior tutor, Oral Biology and Immunology (Faculty of Dental Medicine University of Lisbon)

2004–2007: Tutor, Oral Biology and Immunology (Instituto Superior de Ciências da Saúde – Sul)

4. Research Experience

April – November 2013: Junior Research Scientist at Bluestone Center for Clinical Research, and at the Infectious diseases lab (Dr. Malamud lab) – Basic Sciences Department – New York University School of Dentistry.

2007–present: Researcher, Oral Biology and Biochemistry Research Group – Dentistry School, University of Lisbon.

2007–present: Member of the Evidence-based Dentistry Center (Dentistry School, University of Lisbon)

2003–2007: Undergraduate research student (Oral Biology Research Group, Instituto Superior de Ciências da Saúde – Sul)

4.1 Publications:

4.2 Research Interests:

- Oral immunology in HIV infection
- Saliva composition in health and disease
- Salivary secretion physiology
- Behavior of oral cells and tissues

4.3 Grants:

2010 Institutional project grant 297/2010, Luso-American Foundation (PI: Professor Doutor António Mata)

4.4 Research Positions:

2007–present: Member of the Oral Biology and Biochemistry Research Group – Dentistry School, University of Lisbon.

2003–2007: Undergraduate research student (Oral Biology Research Group)

5. Other professional experience

2007–present: Private General Dentistry practice in Lisbon.

2007–present: Pro bono clinical practice in general dentistry at ABRAÇO (association for support of HIV-affected people)

6. Professional Affiliations

2016–present: Member of the American Association of Oral Biologists

2016–present: Member of the Association of Basic Science Teachers in Dentistry

2010–present: Salivary Research Group, International Association for Dental Research

2009–Present: Portuguese Society of Stomatology and Dental Medicine

2008–Present: International Association for Dental Research

2007– present: Portuguese Dental Association
